

# REDBUX

## ADULT CRYPTO PAYMENT

fast – easy – safe

---

# THE PAYMENT SOLUTION WITH REDBUX - KNOW HOW

## **Smarter Banking and Payments**

By merging banking and payments on one platform you only have a single touchpoint for a maximum of flexibility and transparency over your occurring expenses.

## **Fast and Secure on Blockchain**

The decentralized functionality of blockchain and the additional verification process of every participant ensures, that transactions are scammer-proof and immutable in a Peer-to-Peer network.

## **Lower transaction fees**

PayPodo's competitive pricing eliminates a truckload of conventional fees.

---

# WHY CAN WE OFFER THIS?

## **Decrease fraud and chargebacks**

Our system identifies both parties upfront to ensure money flows are executed by legitimized persons.

## **Transactions in both fiat and crypto**

Extra revenue stream and conversions from fiat to crypto and vice versa.

## **Efficient customer retention**

Customer loyalty is earned through a speedy KYC process, AI-driven AML, and blockchain applications.

---

# SECURITY STANDARDS

## **Your personal data stay with you**

No need to save your credit card details at online merchants.

## **Decentral Data Management**

Blockchain makes transactions tamper-proof and immutable.

## **2-Factor-Authentication**

2-factor authentication guarantees that sensitive data are protected from unauthorized access.

## **Know-Your-Online Merchant**

You as consumer as well as our online merchants undergo a verification process before the onboarding.

## **Guaranteed Deposit**

Your deposits are backed up to €100.000 by the central bank.

---
